

Leading Sublimation Technology in the 21st Century

PRACTIX OK-405 RTR

- The **Practix 404-RTR** was specifically designed to print narrow web fabrics and plastics from a roll, using heat transfer paper. This machine has become increasingly popular with snow board manufacturers and printers alike. The 405-RTR is an industry standard for printing shoe laces, dog leashes, seatbelts, suspenders, elastic bands, lace and webbing.
